Brand, footer and component reference

The shared rules behind every production PDF in this package. The official logo is used as supplied, in the footer only, with the brand line below it and **Page X of Y** at the lower right. This sheet is itself rendered with that footer.

1 · OFFICIAL LOGO

asset: assets/straft-logo.png

Clear space ≈ ½ the lockup height on all four sides (dashed). Aspect ratio 699 : 163 = 4.289 : 1.

Footer size · 17 pt high (72.9 pt wide)

Minimum · 14 pt high

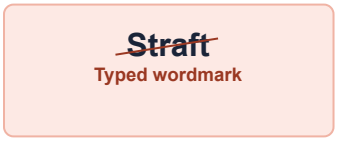

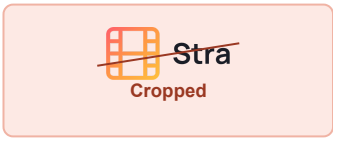

Cover / title use · 26 pt

RULE	VALUE
Artwork	The supplied raster logo (812 × 347 px, RGBA, opaque). **Cropped only to its artwork bounds** (x 69–768, y 96–259) to remove empty margin; pixels untouched. Original kept in `straft-logo-original.png`.
Never	retype, redraw, recolour, outline, stretch, crop into the artwork, put on a coloured fill, add effects, or substitute a font.
Embedding	Embed once as a lossless image (Flate RGB) and reuse on all pages — do not JPEG-recompress.
Where	Footer, bottom-left, every page. Not in headers. Optional larger use on a title/cover only where a document spec says so (none in this package).
Source for the app	Mark gradient (#FF5D6C → #FF9A3D → #FFC23D) and "STUDIO" in orange live inside the artwork; they are **not** PDF palette colours.

2 · COLOUR

tokens in straft-print.css

Navy #1A2640 structure, headers · 15.1:1 w/ white	**Ink #1A2438** body text	**Slate #566277** secondary text · 6.2:1	**Muted #66728A** smallest metadata · 4.8:1	**Faint #8792A5** decor only · 3.1:1 ✕ text	**Line #D8DEE8** hairlines
Orange #E07B1F accent fill/stripe · 3.0:1 ✕ text	**Orange deep #8A4F00** orange text · 5.9:1 on soft	**Orange soft #FFF1E0** accent band	**Panel #F5F7FA** zebra, surfaces	**Tint #E9EFF5** card heads	**Teal #2A6A8C** secondary accent · 5.9:1

Semantic status — always printed as a **text label + tint**, never colour alone (grayscale-safe):

FINAL · DRAFT · NOT FINAL · NEEDS INPUT · INFO · ACCENT · NAVY · NEUTRAL · 12 · 28 · 01

Breakdown category accents: ● Cast ● Props ● Wardrobe ● Location ● Vehicles ● SFX (always paired with the category name)

3 · TYPOGRAPHY AND SPACING

Helvetica / Helvetica-Bold only (PDF base-14)

ROLE	SIZE · WEIGHT	SAMPLE
Document title	28 pt · bold	**LOW TIDE RADIO**
Compact title (landscape)	20 pt · bold	**Shooting Schedule**
Section heading	10 pt · bold caps · +0.1 em	SCENE SCHEDULE
Body	8.8 pt · regular	In the flooded basement they find the station logbook in a sealed ammunition box.
Table cell	8.4 pt	INT. COAST RADIO STATION - TAPE ROOM - DAY
Label (caps)	6.8 pt · bold · +0.1 em	GENERAL CALL
Chip (floor)	6.6 pt · bold caps	MEAL NEEDS INPUT
Footer	6.8 / 7.4 pt	Created using Straft

Minimum print sizes: nothing under 6.4 pt; running text ≥ 8.4 pt; muted text ≥ 4.5 : 1. **Spacing scale (pt):** 2 · 4 · 6 · 8 · 12 · 16 · 24 (section gap 12–16; card padding 6/9; table cell padding 4.2/6; grid gap 8). **Radii:** 3 chips, 4 metrics, 6 cards/callouts. **Rules:** 1.2 pt navy under section headings, 0.5 pt hairlines elsewhere. No shadows, gradients or opacity (not available in the Rust renderer).

4 · COMPONENT SAMPLER

class names in straft-print.css

PLANNED TOTAL
INR 12,00,000
metric.navy

CONTINGENCY

CARD · TINT HEAD

Label — **Value, right-aligned**

Long value
Switches to label-above, left-aligned when the text is long enough to wrap onto a second line.

Missing — NEEDS INPUT

CARD · DARK HEAD

- Bullet with orange dot
- Second bullet that is long enough to wrap onto a second line inside the card

CHANGED Banner: stripe + text label stays legible in grayscale.

CREW CALL	LUNCH	EST. WRAP
07:00	13:00	18:00

TABLE

table title row repeats with the header on every page

START	SC.	HEADING	EST.
08:00	28	INT. TAPE ROOM - DAY Row grows with wrapped text; never ellipsised.	4h

TABLE

table title row repeats with the header on every page

START	SC.	HEADING	EST.
13:00		MEAL Lunch	1h
Subtotal row			**5h**
Total row			**5h**

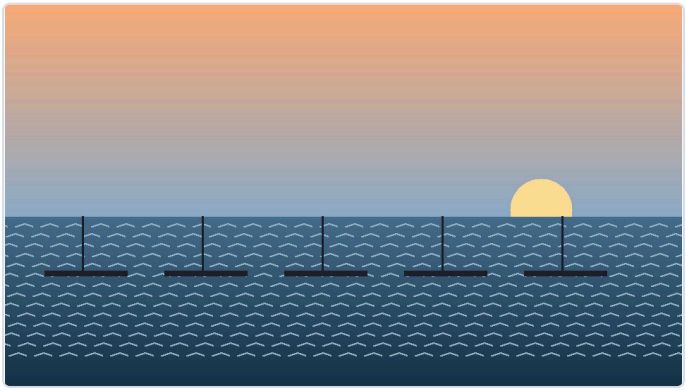

Image · 16:9 frame, *contain* (never cropped)

Image unavailable

Missing image · flat placeholder + source wording

5 · PAGE GEOMETRY AND FOOTER

US Letter · all values in points

ITEM	SPEC
Paper	US Letter — portrait 612 × 792, landscape 792 × 612 (the paper the current exports use)
Margins	46 left / right / top · **66 bottom** (footer zone)
Footer — left	Logo 17 high, bottom edge 33 above page bottom; below it **Created using Straft** 6.8 regular, slate (#566277), baseline ≈ 22 above page bottom, left-aligned to the logo
Footer — right	**Page X of Y** 7.4 regular, ink, right-aligned to the margin, same baseline as the brand line; X and Y are the real page number / total
No	footer rule, repeated logo header, project/document string in the footer, hard-coded page numbers
Running header	Optional single line, top-right, 6.8 regular slate, no rule/logo. **Required only on the Call Sheet** (`PRODUCTION · SHOOT DAY NN · REVISION n`); used elsewhere only where a page-identifying line helps a long printed document (decided per export).
Print-safe	Nothing printed within 18 pt of a page edge; content never enters the 66 pt footer zone

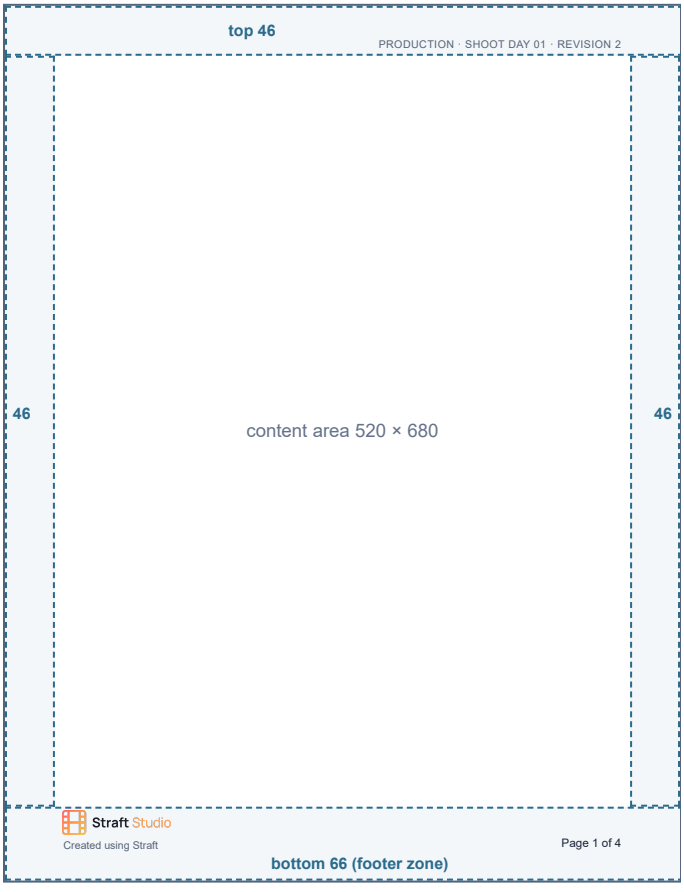

Diagram scaled 0.42; logo/brand/page positions to scale of the real footer.

6 · PAGINATION RULES (ALL EXPORTS)

- Content flows by measured height; no absolute positioning for flowing content; sections expand; optional sections leave no gap.
- Section headings stay with their first content; headings are never the last element of a page.
- Table headers (and the table title) repeat on every page; rows, cards, callouts and figures never split; long tables continue at row boundaries.
- Long text wraps; rows grow; nothing is clipped, truncated or ellipsised; images keep aspect ratio.
- Avoid stray single rows, orphan headings, pages with only a stray item; the renderer moves the last two rows together when one row would be stranded.
- Footer and page counter are page furniture drawn in the margin and are identical on every page.
