Low Tide Radio

18 shots in 3 scenes
Exported 22 Oct 2026

STRESS TEST, illustrative (fictional) data. Lean export: no shot has a picture or an angle or a lens, so the Image, Angle and Lens columns are omitted (builder rule: a column is printed only if some shot in the export has that field). One 12-shot scene, one long scene heading, one scene changed since planning, one selected scene with no shots (proposal).
